 <p>c4</p>	<p>74.184.115.86:743                  74 2balles de                  coton réunies                  184 K'in encadré.                  115 YOL germe</p>	<p>ma K'INA yo NAL                  AC</p>	<p>makina Yo' Nal Ak</p>	<p>grand soleil YO'                  Nal Ak</p>

Most common *prima facie* exceptions to the internal reading order rule are the **AJAW** glyph, and the locative **NAL** superfix, which are seemingly placed on top of a given glyph, but read last: e.g. **K'UH AJAW-wa MUTIa** (The Holy Lord of Tikal) is read *k'uhul Mutul ajaw*, and **NAL-yi-chi** is read *yichnal*.
